The theme of the year CARE-Compassion Acceptance Respect Empathy was chosen to instill in our students one of the most important responsibilities of the human race. It is often believed that love begins by taking care of the closest ones at home. Caring is a wonderful and noble quality which brings smiles on troubled faces that are going through tough times and, comfort to aching souls experiencing difficult situations. If we care enough we can witness a positive change around us. Doing the right thing, to the best of our abilities and showing people that we care is the first step towards motivating the greatest feats which serve as the basis for all positive interactions and relations with others. When we extend love, care and understanding without the thought of a reward our life will never be the same again.

The best way to find yourself is to last yourself in the service of others.

- Makatona Gandlin

Participating in active charity and willing service to show care was one of our major goals for this academic year. It was a humbling yet enriching experience as we reached out to the less privileged members of our society. We were touched by the generosity of our parents, members of the Little Flower family and the willingness of our students to go out and bestow love on the less fortunate. Our greatest achievement through this was the way our

students learned to care for the needy, after having seen for themselves the plight of others.

It is not what you do for your children, but what you have tenght them to do for theuselves,

that will make them successful burner beings.

- Ann Landess

It was our constant endeavour to provide our students with appropriate apportunities that enabled them to grow from strength to strength. They have performed extremely well and have brought laurels to themselves and the institution. Winning accolades has become second nature to Little Flower and this year they have come from diverse fields, making us aware of God's manifold grace and hand in all our activities. The 9th INDY's Education Award for Excellence in School Education and the Hussain Sagar Lake (HSL) Best School Award for Conservation of Nature are a testimony to this fact. We have captured some fascinating and thrilling moments in this journal for our parents, friends and well-wishers who share in our pride. I thank every individual who has contributed to this piece of work and wish all of you a happy reading.

God Bless us all.

Bro.Dr. A. Anthony Reddy.

A TRAIT TO POSSESS

Caring is an attitude to do a good deed for someone. It is a good trait to have. Caring is to support people as they go through tough times.

Ahsan

When you care for someone you make a difference in the world with your kindness. Caring for others is wonderful virtue and the world will be a better place if we care for one another.

THE VALUE OF SPORTS AND GAMES

Sports and games are very important for us. They keep us healthy and fit. They offer us a change from the monotony of daily life. It is a useful means of entertainment and physical

entertainment and physical activity. Sports and games help in character building.

They give us energy and strength. Thus, sports have great value in life . Sports facilities are being developed in rural and semi urban areas. There are playgrounds in villages too . Good infrastructure is being developed everywhere so as to promote sports and games. Various sports organizations are also playing an important role in promoting sports in the country.

A HELPING HAND

Our life is a gift from God. He has provided nature to take care of us. In return we too have to take care of it. Care also means to give and help others

Hajra Abeer

without expecting anything in return. Care for others and share whatever you have with the less fortunate. The smallest act of caring has the power to turn a life around. We should treat others with respect and kindness and put the needs of other people before our own. We should take care of our family and friends because they are always there when we need them. We should help other people when they are in need.

I think caring and loving others more than ourselves is the only way we can feel continually loved.

ALL STUDY AND NO PLAY

In a student's life, extra curricular activities help the student in shaping his or her personality. These activities hones the students' skills and confidence which

lead to the path of a successful future. Through participation in sports and different games, students learn cooperation, the skills of team work, leadership and time management.

Games also help students to discover their hidden talents. They help them to interact with different people and learn about many new things. In a real sense, games nourish students' character and help in overall development. Games are creative and are an expression of the human spirit Thus, the main purpose of sports and games is mental and physical refreshment.

SWALL DINNE CAMPAIGH AND

I whole heartedly appreciate our beloved Prime Minister Sri. Narendra Modi for taking up the nationwide cleanliness and sanitation T. Karamabhiram drive as a part of Swachh Bharat Abhiyan".

Here are some small steps I have taken over the past few months to show my concern to protect our environment.

- At first, I stopped throwing chocolate wrappers, fried chips packets, empty biscuit packs and so on the floor. Instead, I keep these wrappers in my tiny pocket till I find a dustbin, be it at school, home, street or a shopping mall.
- My parents taught me to use both the sides of the paper to save trees.
- When I go to a restaurant with my parents, I make sure that used paper napkins are put in trash bins, taps are closed after washing hands and water is not spilled on the floor.

- I am proud to say that at home, my father has given me the task of switching off lights and fans when not in use.
- My parents and grandparents taught me to donate unused items to the needy instead of discarding them.
- Like me, I am sure many kids and elders all over India must be doing their bit to protect our environment.
- I really hope the change brought by each individual by following "Swachh Bharat Abhiyan" will not only clean our society, but also make us responsible citizens.

CARE

When I hear word 'CARE' I remember my mother, as every mother is a true example of care. As TET a child I experience a lot of 5. Sushruth care at home. Caring is an aspect that facilitates families, schools and communities to work together to teach good values and to enhance the child's achievements. 'Care' symbolizes friendship, kindness, sympathy and empathy. It is the most important motivational factor behind our actions. It motivates us to achieve success. It serves as a basic virtue of all our positive interactions and relations with others.

A STRONG BOND

The word "CARE" stands for Compassion, Acceptance, Respect and Empathy.

Mohika J.S. Malhan

Most of the relationships in the

world are based on care. A small baby feels that it is being cared for by the touch of its mother's hand. It gives a soothing feeling to the infant. Parents and teachers take care of children which build a very strong bondage between them. People take care of their pet animals with love and affection. These animals reciprocate by showing their loyalty towards their masters. We take care of the environment. We see that it does not get

polluted. As a good human being it is the duty of every individual to take care of himself or herself and the things around them. This feeling of care and concern develops a strong unbreakable bond between them that can never be separated.

Finally, I conclude with a short poem, Let us spread the fragrance of CARE, Let us make the universe fair, Let us thank the God Almighty, For all his blessings in plenty.

I CARE FOR THE ENVIRONMENT

When we talk about the environment, we mean everything in the world around us that affects life on earth.

Mubashir Hasan IV C

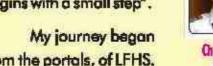

A clean environment is essential for healthy living. The more we neglect our environment, the more it gets polluted and creates a harmful impact on our health. Nature gives us so many things for free, like air, water and landscapes. It is upto us to protect them, keep them clean and

utilize them. The earth is our home. It is where we live and so it is our duty and responsibility to take care of it. We must start caring for it by keeping our surroundings at home and in school clean and tidy.

The "Swachh Bharat" campaign started by our Prime Minister is a big step in keeping our country clean and pollution free. The smallest contribution made by each one of us is a big step towards maintaining a healthy environment. We can start by planting more trees, throwing garbage in the bins and recycling paper. We should also try to save fuel and electricity. If we take care of the Earth, it will take care of us. After all, our natural resources are not inherited by us from our ancestors but are

In order to fulfil their dreams, my parents

put me into this temple of learning. Taking tiny nervous steps and weeping, I stepped into these gates of knowledge and began a new journey, to get moulded by experts from mounds of clay into a beautiful pot.

Every day was a memory, full of emotions and expressions, teamwork, guidance, care, happiness, gratitude, inspiration, excellence, endurance and unity.

I'll always remember and cherish the year 2014 because it signifies a new beginning for me. Chosen to be the school pupil leader (girls) was an experience of great honour and privilege. This was a proud moment for my parents too. This was possible only because of Rev. Bro. M. Joseph our dynamic Vice- Principal and our teachers. In school, my dreams became my ambitions and it also defined my aspirations. Most importantly, it has moulded my character. It has made me what I'm today.

The experience of being the School Pupil Leader is highly exhilarating and it has increased my confidence levels.

For everything I am today, I thank Rev. Bro. Anthony Reddy our Principal, Rev.

Bro. M. Joseph our Vice Principal and our dedicated teachers.

To all my dear friends and fellow students, I have this to say, "Each day is a gift. Let us not leave any stone unturned. We shall leave our fears behind and scale greater heights."

SAVE LIFE

Make donating blood with regularity a part of your life. The process is simple and safe, you can save the life of a friend, a reighbour, and also

a family member. In every two seconds someone needs blood.

Mr.John Sheppard, aged 78 years, a retired attorney began donating blood 60 years ago and has given almost 40 gallons. He gave the last 315th pint of blood last month, it was enough to earn him a spot in the Guinness Book of World

Records. He officially holds the world record title for most whole blood donated.

I have two sons Mohammed Affaan Zain and Mohammed Adnan. Adnan who is the younger of the two needs blood every twenty days as he has severe health problems. My brother Nayeem and I donated blood once in every 90 days. Even then we need to purchase blood for my son, as that was not enough.

I would like to enlighten the students about some of the benefits of donating blood.

- 1. The joy of saving human lives
- 2. Free health check-up
- 3. Reduces risk of heart disease
- 4. Burns colories
- Reduces the risk of cancer and many more

My younger son Adnan is no more now, May his soul rest in peace. God needed him more than us. He will always be there in everyone's heart.

road. This campaign is India's biggest ever cleanliness drive. Three million government employees and school and college students of India participated in this event. The objective of the campaign is to accomplish the vision of Clean India by 2nd October 2019, on the 150th Birth Anniversary of Mahatma Gandhi. The campaign was described as "Beyond Politics" and inspired by "Patriotism"

The campaign is not only about a clean India through waste management but it also aims at changing habits and mindsets through a sustainable process of creating awareness on the importance of hygiene, to facilitate its implementation at several levels and to bring about a positive change in every household in the country. Its vision is to have a cleaner and greener India.

CARE - COMPASSION, ACCEPTANCE, RESPECT AND EMPATHY

THEME OF THE YEAR

TWO MAGIC WORDS

A small yet a helpful deed can spark a neverending flame of pleasant, everlasting human relationship and the virtue of gratitude adds the much

V. Janvika V E

needed fuel. God has created all of us to lead a meaningful life. Helping the needy and encouraging others to be kind and generous towards others is the need of the hour. When the two magic words—THANK YOU—flow from the receiver's heart,

either through words or actions, it tempts the helper to continue with the good work.

These words have to come from the bottom of the heart, spontaneously and not because someone has asked us to do so.

The virtue of gratitude is the essence of life. The following is my expression of gratitude.

The virtue of gratitude,
Has a great value and magnitude.
The expression so effective,
The effect so expansive.
When you say 'Thank You',
The whole world respects you.
It shows your moral factor
And reflects your character.

HELPFULNESS

Helpfulness means trying to make life a little easier for other people. When we notice someone struggling to open a door or trying to complete a task or

Bhavish Mitsal

even going through physical and mental trauma we should lend a helping hand and show our concern for them.

lf we look around us we find many kind hearts spreading the fragrance of generosity. The beauty of this world depends on such helping hands. Like generosity, helpfulness is a gift that gives joy and satisfaction to the giver. Sometimes we receive help from those whom we have assisted. Often helpfulness ripples through the world as other people take it forward.

"You cannot teach a man anything; you can only help him find it within himself" - Galileo Galilei.

A HELPING HAND

"CARE" is a four letter word that can change the face of the earth.

M. Navya

- C stands for COMPASSION
 - It means to be concerned for others.
- A stands for ACCEPTANCE It means to accept any person or any situation as it is.
- R stands for RESPECT It means to respect our elders, society and our nation.

E stands for EMPATHY—It means to share the feeling of others and take care of the environment.

"The easier way to make ourselves happy is to see others feel happy"

- Swami Vivekananda

Caring is lending a helping hand for the people who are in need. It can be in the form of financial support, concern or moral support.

Home is our first school. Parents are the first teachers of a child. Parents should take the initiative to teach their children the importance of others in their life.

The roots of selfless service and valuntary activities get nourished in the joint family structure and the children learn basic values like caring for others, helping and doing service to the family and the society at large. Indian culture teaches us to be caring.

Unfortunately people think that money brings all pleasures and it is the only solution for all the problems. Most people fail to understand that money alone cannot bring happiness, but an affectionate touch can do miracles.

Not sympathy, but empathy is the need of the hour.

When our family members are sick, we serve them with lot of care. The same concern should be shown for all the people around us who are sick and suffering. We need to serve them like the way we serve our family members.

When we help a person, we feel very happy and unknowingly we establish a relationship with God.

The entire world is dependent on nature. So, it's our prime responsibility to take care of our Mother Earth and save it from various disasters.

We can take care of our Mother Earth and the environment by following a few simple steps:-

- 1). Plant more trees.
- 2). Save water.
- 3). Avoid plastics.
- 4). Conserve energy and save electricity.
- 5). Use eco-friendly products.
- 6). Prevent pollution.

Animals too have the right to live on the earth. Therefore, we have to take care of them and protect them from becoming extinct. Swami Vivekananda said, "Life is short, the vanities of the world are transient, but they alone live, who live for others, the rest are more dead than alive."

Life of Mother Teresa is the best example of a caring person. She spent her entire life serving the poor as she believed "Service to the poor is service to God." Today, she is alive in everyone's heart for her kind deeds.

Swami Vivekananda rightly said "In helping the world, we really help ourselves." We see people who are old, physically challenged and mentally challenged. We should help them. When we see the people suffering from dreadful diseases like cancer and AIDS, we need to take care of them and help them to overcome their pain.

Always remember, 'Give the best to the world you have, the best gift will come back to you.'

PRECIOUS HANDS >

Once a young man applied for the post of a manager in a renowned company. The director carefully looked at his CV

P. Anusha VII C

and asked whether he had received any scholarship, to which the young man said, "No". The Director asked him about his parents and their profession. The young man said that he was a son of a washerman. The director asked the young man to show his hands. They were smooth and soft without a scratch or a cut. He asked him whether he had ever helped them in their work. The young man said that his parents always wanted him to study, so he never got a chance to help them. The Director requested him to go home and clean his parents' hands and see him the next day. The young man was astonished to hear this. He was rather bewildered. He went home and expressed his desire to his parents and began to wash their hands. They both were taken aback and could not believe their ears. Not knowing what to do, they gave their hands to be washed by their son. While cleaning, their hands, tears rolled down the young man's cheeks. For the first time he noticed blemishes, rashes and cuts on their hands. He realized that the effort of these precious hands had made him what he was. They washed others' clothes to give him a bright future. That night he spoke to his parents for a long time.

The next morning he went to meet the Director. He noticed the young man's moist eyes. They were the tears of realization and a whole-hearted appreciation for his parents. He expressed his gratitude to the Director for making him realize how hard his parents had worked to provide quality education for his bright future. The director too reciprocated and said that this is what he was looking for in a manager. He appointed the young man and gave him the post of a manager in his reputed company.

So friends, let's appreciate the hard work of our parents as they bring us up as responsible citizens. Let their sacrifice not go in vain.

CARE-COMPASSION, ACCEPTANCE, RESPECT & EMPATHY

Lao Tsen, a Chinese philosopher rightly said, "By money or fortune a person may rule over the world for a short period of time but by virtues like love, kindness and care he may rule over the world forever."

sympathy and empathy. Care is tender and warm. Caring for someone or something means we are concerned for someone's well being. We are conscious about what harms and heals a person if we care for them. Acts and words of kindness show people how much we care for them.

Caring helps us to achieve great feats in life. Students spend a large amount of time for their studies not because they enjoy it but because they care for their future. Soldiers sacrifice their lives and families and fight to protect our country. This is because they care for our country. They respect, accept, show empathy and are compassionate towards the nation and its citizens. From families, to communities and to societies, care is a glue that binds all of us. It is the base for all positive interactions and social relations .lt helps us to accomplish success. When someone cares about something or someone, he sees that he takes appropriate actions, relevant decisions and someone who is not caring does not do so. People have an occasional bad day and I am there for them because I know when they feel upset they need a shoulder to cry on. I make it a point to make at least one person happy a day.

We must be compassionate towards all the living beings and nature. We must accept the environment and not harm it. Mother earth has cared for us for centuries. Now she needs our care. She deserves our respect. Let us be compassionate and empathetic towards her.

Above all we must also care for our parents, teachers, relatives and everyone around us. For they care for us and now it's our turn to care for them. We must also care for the finiest animal and plant for they are important for our survival. We need to be compassionate towards everyone, accept, respect and be empathetic towards them, else, we will miss all the goodies in life! We must make it a habit to care for everyone because compassion, acceptance, respect and empathy are good virtues in life which can take us to greater heights.

My qualities?

Yes it is love and care.

I am blessed to have the love of my parents in abundance,

Truly I'm neither selfish nor cruel,

'Cause the jewels that dwell in me

Whenever you feel lonely, dear friend,

Come and ask for my jewels!

They will be preserved for you.

People call me a thief,

Because I always steal their jewels from them.

Yet I'm being loved and cared by the known and the unknown.

I receive thousands of messages,

A message which supports me,

That tells me that they care for me,

Achild's hug, a poor man's smile,

Which is all needed to strengthen my heart, my soul.

I Care For ORPHANS

MY TRIP TO LILLIPUR

A day away from normal routine, no sound, no pollution—that's a trip to a village. On the 7th of September, 2014 accompanied by our

Ramana.

Principal and a few teachers, a group of students set out on a journey to a village named Lillipur to visit a few underprivileged girls. These girls were orphans. Our aim was to bring joy into the lives of these children. Each one of us brought a few potato chips packets and these were distributed among the girls there. There is joy in giving. After distributing the eatables and exchanging a few words with the girls, a few students displayed colourful 'rangolis' which were the centre of attraction.

The orphanage was full of greenery.
We went around the place and saw various

types of flowers, plants, a few cute little rabbits and two faithful dogs. We also collected a few samples of rare specimens for the science lab. We then visited a nearby church. The next place we visited was the government school that was close to the orphanage. The school was very small and had just a few rooms. Some of the classes were conducted in the corridors. As it was a Sunday, the school was not functioning.

There was a teacher in the school to welcome us. We spoke to him and got to know a lot of things about the functioning of the school.

The students were very irregular. Their parents did not allow them to go to school and instead took them to work. This was the pathetic condition of the students of the school. However, there were a few students who were very regular to the school and their parents too encouraged them. Our Principal thought of ways in which we could contribute for the betterment of the school. Before we left that place two girls and a boy came there. One of the girls was a student of Class VI and the other two students were of Class VII. They lived nearby and were the ones who took care of the school. It was great speaking to them. We then had our lunch and left the place.

After reaching the city the scenario was completely the opposite, we were missing the pollution free environment. I thank our Principal for giving me this opportunity to visit a place equivalent to heaven.

यहाँ हमने गरीब बच्चों की पढ़ाई - लिखाई का उत्तर देखा। हममें उनके अच्छे से सवाए नए क्याओं को देखा। उनकी कदाओं में हमारी कदाओं बैसी सभी सुविधाएँ तो नहीं थी । लेकिन हमने उन बच्चों में पढ़ने की विद्वासा देखी। यह देखकर हमें बहुत खशी भी हुई। हम सब ने किर मिलकर उनमें बिरिक्टों को बाँटा और बोधी देर जनसे मार्थे भी की।

बोड़ी देर बाद हम उसी स्कूल के उच्च विद्यालय की ओर बढे जहाँ केवल लड़कियाँ ही पढ़ती हैं। उन्हें पढते हुए तो हमने नहीं देखा किंद्र उन्हें किलाई का काम खीं सरे हुए हमने देखा। उनकी हाथ की खिलाई हम को बहुत पर्संब आई। उन सब में भी हमने बिस्कुट के पृष्टियाँ को बाँटा। हमारे उकुल के तरफ से हमने उन्हें पानी श्वध करनेवाली एक महीन भेंट की । हम सभी ने मिलकर उसका उद्घादन किया। वहाँ बहुत खुली जगह है, जहाँ हमने हंसो, मुर्जियों, करगोबों, कृत्वों और कसुओं को देखा। पास ही में एक बहुत सुंदर सा बगीवा भी है। रंग बिरंगे किलिकलाये फूलों को बेजकर हुगारी सारी वकान ब्र ही गई।

हमारी यात्रा का अंत वहीं पर हो जवा। शाम के पाँच बज रहे थे जब हम उस सरकारी विद्यालय से निकलकर अपने विद्यालय पहुँचे। वहाँ से फिर हमारे माधा-पिता हमें घर ले गए। उसी विम से हमारी चुक्कियाँ शुरु हो रही थी और मुझे बहु लगा कि वह हमारी बुद्धिकों की अबझे शुरुआह दी।

हंस्वर में जीवन व मृत्यु के अंतर में ही सारी सुब्दि की रवना की है। कीवन समाध भी है और अमाध भी है। किसी ने सब ही कहा है ''आए हैं तो दुनिया में हमें जीना ही पड़ेगा, जीवन है अमर लहर तो पीना ही

पड़ेजा''। यहाँ उन बद्धिस्मत जनायों का जिल्ल किया जा रहा है जो अपनों के प्यार व नमता की खावा से वंदित होकर कीते हैं।

उनको माँ-बाप की ज्यार मरी लोरी व दुलार भरी जोबी भी नसीब नहीं होती। यहाँ तक की माँ का आँचल भी प्राप्त नहीं हो पाता। वे बाप की उंजली पकड़े बिना चलते हैं और बाप की पीठ को बोड़ा वनकर चढ़ने का आनम्ब तक महीं जानते। उन्हें जो जिले पेट भरमा पड़ता है। उनको सुला खुलामा, उखलमा और लुक्जे-खुपाने वाले कोई महीं होते। कोई भी उनको खेल-खिलोने देने वाला नहीं होता। रंग-बिरंजे गुम्बारे, जुड़के - गुढ़ियाँ और चूनने -नाचने वाले जिलीने उनके बचपन में कहीं। ठोंकी -बिरकुट व लॉलीपॉप का तो स्वाद भी पता नहीं होता। वे तो साल से पूटे हुए व मुरह्माये हुए फूलों की तरह होते हैं जिन्हें म ज़िव करमा आता है और मा ही किसी चीज़ पर अपना हक जमामा। मानूसी, तरसमा और लामोशी ही उनकी फितरव बनकर रह जाती है। उन्हें हठ करमा, जमरदस्ती करना और वोड़ना-फोड़ना नहीं आता। वो दूसरों की दया पृष्टि पर आस लगाये रहते हैं और अपनी हर जरूरत यहाँ तक की भूस प्यास को भी काबू में करने और सहन करने पर मजबूर हो जाते हैं। उनकी अपनी कोई चाहत व पसन्द नहीं होती। उन्हें नहीं पता होता कि प्यार किसे कहते हैं और किससे किया जाता है नवों कि उनका अपना कुछ भी नहीं होता। सभी कुछ जो भी उन्हें निलता है उपार का होता है वह भी पान में विधा हुआ। वह ऐसे ही होते हैं जैसे परवरों के बीच कोई पीबा उनता है और कारिदार झाड़ी का रूप ले लेता है विना फूल के बिना सुगन्ध के रेत और गर्मी ही उसका वातावरण होता है किसे भूले-सबके जानवर ही रोंद जाते हैं।

इस संसार में अपनी अपनी ज़िबनी जीने का हक सभी को है। मैं कुछ भी नहीं तो कम से कम उनसे हमदर्दी व प्यार तो रख ही सकती हूँ। कितने ही सुजवसर व त्योहार आते है जब हम उन्हें केक, पेस्ट्री और मिठाइयाँ जिलाकर आ सकते हैं और अपने कम्मदिन पर उनको मेंद्र, मुक्तियाँ, किलीने देकर उनके मनोरंजन का स्थाल कर सकते हैं। वसहरा, बीवाजी, और किसमस पर रंज-बिरंगे मुखारे और हत्की-पुरुकी आविश्वमानी देकर उनको खुश कर सकते हैं। आपसे मेरा अमुरोध है कि आप भी उनकी करूरतों का स्थाल कर कुछ म कुछ दे सकते हैं कितसे उनका भला हो सके।

AN ENRICHING EXPERIENCE

On the 22nd of October, 2014, my long awaited dream came true as it was the day on which we were going to Lillipur. Dev A After writing the exam, My friends and I had our lunch together.

Dev Agarwal

We boarded the bus and started for Lillipur at 1:00 p.m. My dear friends and I enjoyed playing and singing during the journey. We reached the Old Age Home at 2:00 p.m. We distributed screes to the old people and interacted with them. We were sad to hear their sad stories. We learnt many moral values from them. They were self-organized. We saw small puppies which were very cute. We played with them and had great fun.

Then we went to Lillipur. We reached a government school by 4:00 p.m. We distributed sweets, biscuits and interacted with them too. Soon it was time

for us to leave. We left for a school where young women learnt craft. We reached the school of handicrafts. We saw that a few young women were making beautiful designs on clothes and baskets. We appreciated their work. We saw a magnificent turkey there. We also saw rabbits and their bunnies. They were nibbling carrots. Finally it was time for us to bid goodbye to Lillipur.

We started off for the school and reached by 6:00 p.m. We were very tired, yet excited to describe our experiences at Lillipur to our parents. This trip indeed was very exciting and enriching. It taught us the valuable lessons of life. I will never forget this trip and the virtues I imbibed from it.

REACHING THE UNREACHED

It was my last quarterly examination. I was excited to go to Lillipur, as it was my first visit to the place. After lunch at school, we had an hour's break and we relaxed and

enjoyed each other's company. Then the bus came to pick us up and we travelled for almost 2 hours before we reached the Home for the Aged. It was a pleasant

journey. We had carried some food grains like rice and dal for the Home. We were excited to see cute puppies there. We had a good time playing with them. Then we went inside and met some of the inmates. who gave us tips on how to prepare for the exams. They too were happy to see us. Having finished our conversation with the members of the Old Age Home, we went to visit a Government school. We distributed biscuits to the students and they were happy to receive them. We went to the High school where we were mesmerized with the craft work done by the girls there. They were making beautiful wall hanging and other decorative items. Though we went to give them something, we actually learnt many things from them. Their smiles inspite of their hardships motivated us to be optimistic and loving towards others. This one day trip to Lillipur has brought a great change in my attitude. I have become a caring person.

Carrying all good memories and our hearts filled with happiness, we returned to our school. I am looking forward for some more such visits where I can do my bit to express my concern for humanity.

MY MOST CHERISHED MEMORIES

After two months of vigorous practice, over 31 students from Little Flower High School participated in the 32nd National Montfort Sports and Games held at

Akhila Sharon

St.Alphonsus' High School, Nalgonda from 30th October to 1st November. It was an amazing experience for all of us. I would like to share my experiences during my training for this event.

My P.T sirs, teachers and Basketball Coach trained us every day early in the morning. Our session would begin with warm up exercises and running. Our coach taught us some new techniques-how to pass the ball and convert it into a basket. We often played matches with boys. After the training, we had a banana,

milk and an egg every day. During the school time, other school teams would come and play with us. Rev. Bro. Dr. A. Anthony Reddy, our Principal encouraged us and told us never to lose hope and be confident. His words always boosted our energy levels.

We boarded the bus on the 29th of October at 1p.m. and reached Nalgorida at 5:00 p.m. The school has a huge ground. Soon we went to our respective rooms to freshen up. The event started on the 30th with a Welcome dance and Prayer song. We had our breakfast and then went for our competitions. On the First day, we had Basketball match (Girls) with Kothagudam and won the match. Other competitions like Long Jump, High Jump, Javelin Throw, Shot-put and Relay were also conducted and team events like Badminton, Table Tennis were also held. All our friends cheered for us and we were qualified for the Semi-Finals. The next day, we cheered for our Basketball team (Boys) and supported them and they won the match. We won the 100 meters race. The Girls' Basket Ball team lost the match with

Little Flower School, Uppal. But I didn't feel disheartened and decided to do well in the next match.

On the last day we played a match with St. Mark's Boys' Town and bagged the 3rd place. The boys played their final match with All Saints' High School. Their team was strong but we didn't lose hope and we cheered for the boys. They won the 2nd place. In the evening there was a grand Valedictory function. Our school won many prizes and we were happy. I thank Rev. Bro. Dr. A. Anthony Reddy for giving me this opportunity to participate in the 32nd National Montfort Sports and Games Tournament. I would also like to thank my teachers, P.T sirs and our coach who have supported and trained us

MY EXPERIENCE AT THE SOCIA NATIONAL MONFORT GAMES AND SPERITS

After weeks of tremendous practice, all of us were well prepared for the XXXII National Montfort Games and Sports, held at St. Alphonsus' High School, Nalgonda.

Y. Apneetha

The day which all of us were waiting for had finally arrived. It was the 29th of October. We left for Nalgonda. Unlike the other days, we had practice at 6:00 a.m. After a rigorous practice, We went home after meeting our friends and receiving blessings from our teachers. I stuffed some clothes and snacks for the journey. We were asked to report at the school at 1:30 p.m.

We boarded the bus at 2:15 p.m with a lot of excitement. As the bus started, we bid good bye to our parents. As soon as we crossed our school lane we started munching chips and biscuits. we played dumb charades, sang songs and watched a Telugu movie for some time. We enjoyed the pleasant breeze and the scenery on our way to the school. No sooner did we enter Nalgonda than the bus tyre was punctured, but we were happy as we could enjoy playing for some more time. The bus journey was a lot of fun.

We arrived at St. Alphonsus' High School at 8:00 p.m. After reaching the school, we were pleased to know that they were celebrating their Golden Jubilee year. We entered the school with great excitement. All of us freshened up and went for dinner, we were so sleepy after the long journery that we slept in five minutes.

On the First day, we woke up at 4:00 a.m. and by 5:00 a.m we were on the ground doing warm ups. The opening ceremony started with a prayer song. The Principal of St. Alphonsus' High School gave us an inspiring speech. This was followed by lighting of the torch. We cheered for our Girls Basket Ball team a lot and were very happy that our school girls' team won the first match. After having our lunch, we were eagerly waiting for the (Boys) Basket Ball match. There was an announcement stating that the Shuttle and T.T. players had to assemble near the gate. We were taken to the indoor stadium, where we had to play our matches. We were excited as we were going to play league matches. Our first match was very tough as it was against the Nagpur team, but with Ajith sir's guidance, we won the match. By the time we finished the matches, it was 6:00 p.m. We were able to win a game only against one school. When we came back to school, we were happy to know that the Boys' Basket Ball I team and the Girls' Basket Ball team won the matches they played. We were very disappointed to know that we last in some of the Athletic events. After having our dinner, we slept by 9:00 p.m.

The Second day also started with a Prayer and a few prizes were given away. There were some track events going on. So, all of us decided to watch those events. We were very happy that almost everyone qualified. We boarded the bus and left for the Indoor stadium. The whole day we had continuous matches. Finally we qualified for the finals. By the time we completed our matches, a bus was waiting for us. We entered the campus with great joy. After having lunch, boys' basketball team won a pool match. At 4:00 p.m., we had to leave for the stadium to play the Final match. We played our match and were very happy as we stood First. That day we had a lot of fun.

On the last and the final day of the Montfort Games, all of us were very sad as we had to leave the school. On the score board L.F.H.S. was leading. We were very happy as the Boys'Basket Ball all team stood Second and Girls stood Third. All of us were dressed in our school uniform and were ready for the march past. There was a wonderful dance performed by the

students of St.Alphosus' and all the prizes were given. The most awaited moment of the day was the final results i.e, to know which school would lift the trophy. We were happy as we stood Second in the Boy's category. We boarded the bus and reached school at 11:00 PM

I thank Rev. Bro. Dr. A. Anthony Reddy our Principal for giving us the apportunity to participate in such a big event.

OUR LUMINARIES IN THE SPORTS ARENA

A MEMOIR - REPUBLIE DAY >

I joined NCC in school to develop my personality. It gave me an opportunity to attend camps where I was trained in Firing, Para Sailing and

T. Shivank Singh

so on. I decided to try to get a place in Republic Day Camp Contingent-2015. While at the camp, I faced many difficulties. I had to adjust to the camp routine and environment. Gradually, I learnt many things such as drill, discipline, living in harmony with other cadets, the value of time and doing things on my own.

I was selected to compete for the Best Cadet Competition at Inter Group level.

I had to prove my mettle by surpassing all the other cadets from various districts of Telangana and Andhra Pradesh, I worked hard day and night and my efforts paid off when I was declared the Best Cadet (JD) in the Directorate and was selected as a Flag Area Briefer to compete at the National Level.

I went through three Pre-RDC training camps which groomed me to compete at the National Level Competitions held in Delhi.

I prepared thoroughly for the competitions and I was confident that I would do well. During the camp at New Delhi, a few selected NCC cadets were invited by the Prime Minister, Director General of NCC and Defence Minister for dinner. I felt elated that I was one of the representatives from the A.P. Directorate. Prior to the RD parade various competitions were held in Drill, Flag Area, Best Cadet Competition, National Integration Awareness Programme and other cultural activities for the Prime Minister's Banner, I was overwhelmed with joy on being declared the All India Third Best Cadet. My happiness knew no bounds as my hard work and my teacher's guidance finally paid off rich dividends.

It was an honour for me to witness the RD Parade and the PM's rally and be a part of it. The Prime Minister's rally on 28th January marks the culmination of the Republic Day Camp. It showcased a glimpse of the war which takes place on the battle field. The PM concluded the PM's rally with a speech in which he addressed the gathering. It was inspiring to know that the PM himself was an NCC cadet and also all the Chiefs of Army, Navy, Air Force and the Defence Minister were also a part of NCC. My co-cadets and I returned from Delhi on 1st February, 2015. We received a warm welcome by the NCC Directorate. There were also receptions in the DDG NCC's house and also at the Honourable Governor's Residence. I was very happy to receive a medal from our Hon'ble Governor.

I was very excited to be back after the month long RDC at Delhi. It was the first time that I was away from home for such a long time but I did learn many new things which would help in shaping my future.

I am very grateful to my teachers, especially Rev. Bro. Dr. A. Anthony Reddy, our Principal. It is because of their encouragement and guidance that I have continued to excel in my endeavours. I also thank the Commanding Officer of the 1(A) Artillery Battery Unit Lt. Col. Gaurav Datta and our Associate NCC Officer (ANO) Lt. K. Sampath Kumar for helping and motivating me to achieve my goal.

ENVIRONMENT - THE LOAN FROM OUR FUTURE GENERATIONS

" The Earth is what we all have in common."

- Wendell Berry

B.G. Chaitra

The environment encompasses all living and

non-living things occurring naturally on the planet and the interaction between all living species. In simple terms, it is made up of the biotic and the abiotic surrounding of an organism. According to Jimmy Carter," Like music and art, love of nature is a common language that can transcend political or social boundaries."

From the very beginning, the relationship between man and his environment has stood as an excellent example for a symbiotic relationship, benefitting man the most. His never

ending list of needs have always been fulfilled by nature. This relationship has stood the test of time for ages until the beginning of the Industrial Revolution in the mid 19th century. It is rightly guoted, "We are seeds as well as the parasites of the earth. We can either give or take, depending on our perception of growth." The word 'parasite' correctly explains the outlook of the attitude of man since the beginning of the Industrial Revolution, who is ready to destroy the host, i.e., the environment to fulfill his purpose .But as Ronald Wright rightly said "If civilization is to survive, it must live on the interest, not the capital of nature."

The consequences of man's actions are being seen taday in the form of drastic environmental changes, that are harmful for all the life forms. Man has proved to be a complex being who has made deserts bloom but has killed the lakes. Now when good living is coming to an end to give birth to survival, man has realized his great folly. He has realized that nature is inexhaustibly sustainable if and only he cares for it. He has also realized that

nature is not going to survive as long as it is held captive by humanity.

Man has ultimately decided to make up for his folly and has started taking up initiatives to restore the environment he had once destroyed. Afforestation, reducing the use of plastics, reducing carbon footprints are some of the steps taken in this direction. Many people have come together to form organizations to create awareness among the people by conducting seminars, workshops, elocutions, quizzes, debates on current issues pertaining to the environment and related topics.

One such event which was conducted in our school was the Quiz by the Environment Conservation Department'. The members organized a Quiz and an Elecution Competition. The Quiz tested the students on various aspects pertaining to the threats faced by the environment like the different kinds of pollution and their consequences, the azone layer depletion and also on the solutions to these problems. The Elecution competitions had the topic 'Environmental Conservation'. Students took part in large

numbers in both these events and had their knowledge of the environment put to test. At the end, each student was given a sapling for participating in the competition along with separate prizes for the winners. The main aim of this organization was to create awareness among the students and to make them go green and eco-friendly and teach them how to care for the environment.

The environment is an inseparable part of our lives. If we have destroyed the environment, then it is we who have to make up for it. The Nobel Peace Prize Winner Wangari Maathai rightly said, "We owe it to ourselves and to the next generation to conserve the environment so that we can bequeath our children a sustainable world that benefits all". It's high time the entire humanity wakes up to curb this ecological crisis. Ocanna Anderson rightly states "The earth is over a million years old, respect your elders,". This tell us the need to respect and restore the beauty of mother earth because if it is not done now, humanity will be pushed to the brink and will be left levitating between living and survival.

वर्षमाम में हम कोबले जे, जल जे पेट्रोल व डीज़ल से उत्पन्न होने वाली किड प्रणाली ऊर्जा का प्रयोग कर रहे हैं। इनका लगातार प्रयोग करने से यह जल्म होने की कगार पर है और पर्यावरण भी दूषित होता है। साय ही साथ इसकी बरे महाँगी होती जा रही है।

सीर कर्जा हमें प्रकाश एवं ताप दोशो रूपों में मिलती है। सीर कर्जा एक असीमित शंडार है। सूर्व से हमें दिव्य शक्ति रूपी कर्जा प्राप्त होती है। सीर कर्जा भगवान का दिया हुआ एक वरदान है तो हम अन्य सावनों का प्रयोग क्यों करें।

आजकल सीर उन्नां के प्रति वैद्यानिकों का ब्यान अधिक केन्द्रित है। मानव कल्याण के लिए वह उन्नां अत्यंत उपयोगी है। सीर उन्नां को बोल्डाविक तरीके से सूर्य की रोशनी को सेमीकंडक्टर की बनी सोलार सेल पर डालकर बिजली पैदा की जाती है। इस बिजली को ईबन के उप में प्रयोग किया जा सकता है। इससे गाड़ियाँ चलकी हैं चरों में रोशनी प्राप्त होती है और सेतों की सिंवाई के लिए भी यह उपयोगी है।

सीर कर्जा प्रणाली की स्वापना करने के लिए अधिक पैसों की जरूरत पहली हैं लेकिन इसका रख रसाय व परिचलम सुगम है। हससे ईबम की बच्च होती है और साथ ही साथ पर्यावरण भी कृषित नहीं होता। दुरस्य स्थामां जैसे रेगिस्तामी इलाकों, पहाडी क्षेत्रों द्वीपों **जंजली इलाकों आदि के लिए भी यह प्रणाली आदर्श है।**

हम सभी को खीर ऊर्जा का प्रयोग करना चाहिए। हससे हमारे पैसों व समिन पदार्च की बचत होती है। यह हमारे पर्यावरण को भी हानि नहीं पहुँचाता है।

IT QUIZANA

I was very excited when I came to know that I was selected for the IT Quiz. My partner was K. Arnay of Class IV. Francis sir was training and guiding us. The Quiz was scheduled on 23rd of August.

Hd. Obaid the Rahman

We went to Little Flower School-Uppal where the IT Quiz was conducted. I got an apportunity to meet our former Principal Rev. Bro. Jaico Gervasis.

To qualify in the Quiz, we had to write a selection test. The top six teams would be selected out of eight teams. Nearly after two hours we got our results. We were elated to know that we got selected for the final round. Our seniors won the First place. I remembered the advice given by Francis sir, i.e., "Be calm and think thrice before you answer." In the

first round, we were leading. After this there was no looking back. We were leading in the final round too and finally we won the Quiz. We had a group photo with Rev. Bro. Jaico. It was truly a joyful moment for us.

I would like to thank Rev. Bro. A Anthony Reddy, our Principal, who gave us a chance to represent the school. I would also like to thank Francis sir who encouraged me and my partner K.Amav to prepare well for the Quiz, I would also like to express my gratitude to my friends Qavi, Tanish, K. Rahul and my class teacher Ms. Ranjita who supported me throughout my preparation.

AN INVISOR GET WAS TE EXPERIENCE

It was 18th of October, the day when I was very excited as I was going to attend the Science Fair held at St. Paul's High School. We started off from

our school at 8:30 a.m and reached St. Paul's High School. My friends Zuha, Mannan and I started setting up everything for the Science Fair. Apart from the Science

Fair. Parent Teacher meeting was also scheduled in the school. All the parents showed keen interest in seeing our projects and we were delighted to explain to them about it. Our topic was 'Health'. We showed various things that affect human health. Now a days soil, air, water and food are polluted and contaminated. We, through our project, explained about various diseases caused by them and measures to be taken to prevent these diseases and stay healthy. We used various models to make the presentation attractive. We displayed the food pyramid and other small pyramids and charts. Our explanation grabbed the attention of the parents and judges. The fair concluded at 12:30 p.m. and at the end of the fair, we were all excited to know the results. It was a memorable day for me.

CH MARINE YEAR BECOME A DOCTOR

Different people have different goals in their lives. Some want to be engineers, some teachers, some scientists and so on. For achieving our aims we

Haniyah

have to work hard from the beginning. To attain our goals we need to be focussed. Without working sincerely we can't achieve our set targets in our lives. To begin, we must know our strengths and weaknesses. We need to be sure to opt for the subjects we are really interested in.

After analyzing my strengths, I realized that I have a strong memory power. I also score well in science. Therefore, I decided to become a doctor. As I have identified my potential I decided to give priority to my choice. I usually read books on science and the knowledge I gain nurtures and nourishes my dream. Let me narrate an incident:

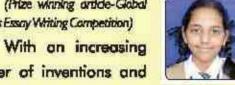

One day when I was going along with my family to the market. I saw a poor man begging. I learnt that his son was suffering from a dreadful disease, I felt sad and helpless. After this incident I resolved that I would become a doctor and save lives.

My parents, who are doctors, are my source of inspiration. I see them treating the poor and needy with dedication. This provides me the much needed drive to opt for this profession.

It is a very rewarding and satisfying job. I know that becoming a doctor is not an easy task. It is a long journey of study, hard work and dedication. One needs to be focussed to become a good doctor. I want to become a cardio-thoracic surgeon. I am confident that I shall accomplish my dream.

health hazards. Be it obesity caused by laziness, (due to the luxurious life style of man) or even health problems caused by pollution. Today's man is completely dependent on machines for doing most of his work. His lethargic life style and his apathy for his surroundings is responsible for many health hazards.

Infection is a term which is familiar to all of us. This term literally is the process of affecting a person with a disease. It is caused by microorganisms that harm our body leading to sickness. Children come in contact with various infections like eye infections, throat infections, lung infections and so on. Young children are exposed to various infections as they play outdoors, or in untidy surroundings or infected areas. We are told that infective organisms are 'Villains' and small steps of precautions are the 'Heroes' in the movie called 'Our Body'.

One can control infection with ease, if one pays special attention to it. Maintaining cleanliness is the first step. Cleanliness is something that can be achieved when one really wants it. With the Swachh Bharat Abhiyan gaining popularity, cleanliness is slowly back on Self cleanliness is the most track. important aspect in one's life. My mother scolds me whenever I consume anything without washing my hands. At that time I grumble and fume in anger. But later, I understood the importance behind each habit taught to me. Good habits make us follow the path of cleanliness.

Finally, I would like to conclude with a poem:

Infection is a devil, Infection is a monster.
Cleanliness is an angel,
Cleanliness is a life saver.
Follow the path of cleanliness more,
To show infection the door.

MY MOMENTS OF PRIDE

I want to share a few of my achievements with you. Last year, for the Annual Day, I participated in Folk Dance and received a lot of appreciation from

Munnaza Afzal

not only my fellow students but also from the Principal and the Chief Guest. This year too, I participated in the Literary Competitions held at St. Paul's High School and made my school proud. Last but not the least, a few days ago I was selected for the Environmental Quiz in which I won the Third prize and received some gifts from the resource person and the Principal. My class teacher is very proud of me and so also my parents. It is my dream to achieve more such accolades in future too.

THE FIRST STEP

"Nothing ever becomes real till it is experienced" - John Keats

was selected along with other team members to represent my school in the Inter School Debate Competition in English, organized by St Paul's High School as a part of their

Mustafa Ali Baig

Diamond Jubilee Celebrations, It was held in the month of July. Since this was my first experience in participating in a contest held outside my school, I started preparing with great enthusiasm. The topic for the debate was "Am I Enjoying My Childhood?". I was to speak against the topic which I felt would be straight from my heart because I really wanted to let the elders and others know of my experiences as a child. On the day of the competition, my partner and I spoke well. I felt a subtle breeze of appreciation for my team. I gained confidence because of this Inter School Competition. My joy knew no bounds when I came to know the results. Our school had won all the three prizes in Debate and my team was placed Third. This gave a real boost to my efforts and motivated me to further my prospects as an individual.

A VISIT TO THE BIRLA PLANETARIUM

With a vision to inculcate scientific temper in students, the senior Science Club was started which provided a platform for students to express their scientific ideas.

Sai Sumant IX D

As an initial step towards this goal, the Science Club organized a visit to the Birla Science Planetarium on the 2nd of August, 2014. Around 50 students have availed this apportunity.

We enjoyed the short walk to the Planetarium. The Planetarium has three different sectors- Physics, Astronomy and Archeology. In the Physics sector, we observed experimental concepts based on mechanics and electricity.

Astronomy sector where we were enlightened about the basic concepts and standards of Astronomy. In the Archeology sector, the remains of extinct species of dinosaurs were displayed. We also witnessed a film show based on the universe and other related topics. It was an amazing educational show.

On the whole, the visit was very informative and interesting. The first visit of the Science Club members to the Planetarium was indeed successful and it has motivated us to plan many such trips in the future too.

NIGHT SKY OBSERVATION

On 12th April, 2014
we were informed that we
would have a Night Sky
Observation during which
we can look at the planets
closely and gain some

A.Pranay Reddy

knowledge about Astrophysics. On hearing this, we all were excited and got ourselves enrolled in the programme. After two days of excitement, the day finally arrived i.e. 14th of April, 2014. We reached the school campus by 4:00 p.m. with our bags, dinner and other necessities. The main organizer of the programme was Mr. Raghunandan Kumar. He gave us a detailed sketch of the programme. Soon the sky became dark and the programme started. It was really an amazing experience. Besides, it was our first night out in school.

The programme started with a view of the planet Saturn. Then we all moved to the Marian Hall where we were shown few documentaries related to the Earth, After watching them we were allowed to have our dinner in the dining hall. We all sat and shared our food. After dinner, we were given some free time. Then we went to the terrace to view planets like Jupiter and Mars. After a gap of 5 minutes we saw Neptune. By then, the time was 1:00 a.m. Then we were asked to do a group activity in which we were given a map and we had to find the time of that place using the pole star. After one hour we presented our reports to the officials. At 2:00 a.m. in the marning, we had a break and were allowed to sleep until 5 a.m. in our allotted rooms. As we were with our friends, we did not sleep and instead played games. We played football at 3:00 a.m. in the morning! That was truly amazing. We took pictures of those wonderful memories which we shall always cherish. At 4:45 a.m. in the morning, there was a wakeup call for us to see the planet Venus. We were thrilled to see the planet. It was an amazing experience for all of us.

A SKY FULL OF WONDERS

The study of stars and other heavenly bodies is called Astronomy. We were very excited to observe the night sky on 8th of November, 2014. A group

G.Shravya

of six members consisting of Sujitha Reddy, P.Sravani, Nishita V, Sidditha T., Vishistha T. and I had a mesmerizing time gazing at the night sky. We were accompanied by Mr. Raghunandan Kumar, founder and head of Planetary Society India. We started our observation at 7:30 p.m. At first we noticed an object that was still and was red in colour. According to our previous observations, we concluded that it was the planet 'MARS'. At 11:00 p.m., we started making our calculations and also learned several things about the heavenly bodies. Then we started calculating the rising and the setting times of several planets with respect to the sun. At around 1:30 a.m. we were able to see Jupiter. Mr. Raghunandan gave us some tasks to complete and find the best time to watch several other planets on the same day. Then Mr. Raghunandan put forward his idea of starting an Astronomical Club in our school. We liked his idea and wished for the same. We had a conversation with Rev.Bro.Dr. A. Anthony Reddy, our Principal who showed interest in setting up an Astronomical Club. We, the six members of our team want to be a part of the club and create interest in other students too in the field of Astronomy.

CYBER CRIME AWARENESS

Cyber crime encompasses any criminal act dealing with computers and networks (called hacking). Besides, cyber crime also includes crimes

Rishabh Pallod X A

committed through the internet. For example: hate crimes, telemarketing and internet frauds, identity thefts and credit card account thefts are considered to be cyber crimes. These illegal activities are committed through the internet.

On the 16th of July, there was a Cyber Crime Awareness Programme conducted in our school by Mr.Sundeep Mudalkar for the students of Classes IX and X.

"Listen to parents, not friends".

Mr.Sundeep Mudalkar mainly focused on the advantages and disadvantages of social networking sites. He even told us about morphing, a way in which a person's photographs can be used for various other reasons. Hacking others' accounts and using them for one's benefit is a punishable crime.

In the Indian Constitution, section 66, 66A, 66B, 66C, 66D, 66E and 62E, 67A, 67B of Indian IT Act enlist crimes that are punishable. A cyber criminal's punishment is for a period of two to three years in jail and penalty up to 2 lakhs.

Mr. Mudalkar is a white cap hacker i.e., he works for the government. He has encouraged many of our students to become white cap hackers and use their talents for the benefit of the nation.

There will always be new and unexpected challenges. To stay ahead of cyber criminals and cyber terrorists we must work through partnership and collaboration with both individuals and the government. There is much we can do to ensure a safe, secure and trust worthy computing environment. It is crucial not only for our well being, but also for our national security and economy.

It was a good session which exposed us to the perils of using the internet and the social networking sites.

WITH A GEM

It was the month of July when one morning all the students of classes 9 and 10 were called to the auditorium for a seminar.
We were all eager to know

Tahoora Fatima

what it was going to be and then entered a personality who proved that it is possible to achieve the impossible with continuous hard work and determination. He was none other than Master T.G.R Karthik, a former student of this illustrious institution.

He was one of the brightest students in his class and one day because of an unfortunate accident he lost his right hand and right leg. Little did he know then that one day he would rise to great heights and get a job in one of India's top companies. Even during his difficult times he never lost hope and continued to work hard.

We were awestruck to hear about his experiences and also the challenges he faced in his life. Master T.G.R Karthik shared his valuable thoughts with us and we were encouraged by the words. Some of the students interacted with him and asked him several questions. He answered all of them meticulously. He also sang for us the song "Alokith Path Karo Hamara" which he had learned during his school days.

He showed us an inspiring Power Point presentation which he had prepared for us. There was this quote of Michael Jordan's which is indelible from my memory-"I can accept failure; everyone fails at something. But I can't accept not trying." All these things made us realize that it is possible to turn a negative situation into a positive one; it is just our attitude that matters.

We were all truly inspired by his message which can be summed up with a quotation by Langston Hughes-

"Hold fast your dream,
For if dreams die;
Life is a broken-winged bird,
That cannot fly!"

I would like to thank Rev. Bro. Dr. A. Anthony Reddy, our Principal, for giving us this opportunity to interact with such an amazing personality. It was an experience which we will cherish throughout our lives.

A VISIT TO RAMOJI FILM CITY

On the 22nd of January, we the students of Class VIII along with our class teachers, Ajith sir and Elias sir, left for Ramoji Filmcity.

G. Rutvik

Vedika Modi VIII C

We reached the Ramoji Film City at around 10:00 a.m. At the entrance, we were given entry tickets and then we proceeded further to board the Ramoji Film City bus to Fundustan. There, we played many video games. We visited the Borasura—a magician's house which was very interesting, exciting and adventurous. We also visited Dome Theatre, Dadaji's various houses and so on.

At 12 'O'clock we boarded the bus to have a tour of Ramoji Film City. We saw many replicas of famous parks, gardens, fountains, buildings and so on. We saw the sets where the movies are shot. We also saw the famous Bhagavatham set where

court scenes are shot. What surprised us the most was the life size statues of kings, queens and courtiers in it.

Later, we visited the Butterfly park where we saw different species of butterflies. Then we visited the Bird Sanctuary where we saw different kinds of birds like Blue necked Macaws, pheasants, parrots, cockatoos, and ostriches.

Then we visited the Bonsai park where we saw many trees which were actually grown in pots. They were much smaller in size and even bearing fruits!

We went back to Eureka at about 2p.m. by bus and had our lunch at the Sangam restaurant. After lunch, we left for "Lights, Camera, Action" show at about 3p.m. The show was fabulous. It showed different genres of the movies like cornedy, action, and animation and so on.

One of the officials in-charge of the show explained how sounds and pictures were incorporated into the movie. After this, we went on the World Tour Ride. It was amazing as it depicted many countries like India, Egypt, Greece, Rome, Italy and so on.

After having an exhibitating world tour, we went to watch a 4D science fiction movie in the Ramoji Tower. It was truly thrilling. Last but not the least, we saw the Wild West Stunt Show. We were thrilled to watch stunts being performed in the movies.

At around half past five, we boarded the bus to school and were back at school around 8.00 p.m.

Overall it was an adventurous experience for all of us.

I take this opportunity, to thank Dr. Bro. A. Anthony Reddy, our Principal for giving us this opportunity to visit this wonderful place.

Teachers play a vital role in the lives of students. They are best known for their role in educating the students placed in their care. Besides, teachers play many other roles in the

S. Maha Lakshmi

classroom. They set the tone of their classroom, build a warm and cordial environment, mentor and nurture students, become role models and listen patiently and guide the students all through in all possible ways.

The teacher has the responsibility to be a great leader in the classroom. Besides teaching, organizing the classroom and communicating cordially with the parents and the students is also a part of her profession. In today's world, a teacher is multi-tasking, handling various responsibilities with great dedication and commitment. It is the teacher who lays the foundation for the future. Hence, I strongly believe that these nation builders are to be

held in great regard. I whole heartedly thank the entire teaching fratemity for playing a vital role in building a responsible society.

and often indulged themselves in reading books. Books make us sharper and brighter. I read books on general knowledge, films, sports, and so on. When you read a book you should write the moral values which you derive from it in your personal diary. Reading books makes us wise, It enriches our life with pleasant experiences in our daily life. Once in a while read out the morals which you have written in your diary and implement them in your daily life. After a few months, ask your parents and friends if they have noticed any difference in your behaviour. I am sure they will notice a remarkable change in your behaviour. My teacher says, "As you rub a diamond, the diamond shines." So also the more backs you read; the sharper you become.

MAY TOSCHE THE CIFT FROM GOD.

Why is that I don't miss a day going to school, even if it is raining heavily or when I'm sick or any ups and downs happen in my life?. It is because of my Prayag Hohanty kind hearted teacher who

always waits for me in front of the door. When I joined the school, my teacher lovingly took me from my mother's hand and made me feel comfortable. This act of my teacher made me trust her. Just like all children, I love going to school because of my teachers as they encourage us in all aspects.

A teacher is like a candle which burns itself to give light to others. Teachers help us read, write and understand the world outside. It's due to their efforts that I'm a successful student. Personalities like A. P. J. Abdul Kalam rose to high positions because of the motivation of their teachers.

A friend who can correct me, a guide who can lead me in the right path, and a philosopher who cares for my improvement is none other than my teacher. My teacher lovingly teaches me moral values, so that I imbibe them. We all know that "Today's child is tomorrow's hope". My teacher's gentle way of guiding

has strengthened my relationship with her. As every instrument needs to be tuned, in the same way, teachers tune every student and lay a strong foundation for their prosperous future. Finally, I would like to conclude with a poem written by Eric Perth-

"I 'm glad you're my teacher' I enjoy every lesson you teach. As a role model, you inspire me, To dream and to work and to reach."

INCREDIBLE YEARS

It is rightly said that every great journey begins with a few stumbling steps and so did mine at Little Flower High School.

Roban Raj Saperna. X X School Popil Looker - Sepa

Today, I am stand treat between the humbled by the trust and responsibility bestowed upon me. It is indeed an honour to have another identity to serve the school as the Student Representative of over a thousand students with vast talents and immense potential.

Little Flower High School has always stressed on the all round development of a child and has prepared us to take any responsibility in life.

My parents have taught me to reach for the stars while keeping my feet firmly on the ground. Thank you and love you, mom and dad.

A teacher is compared to God. They are doing a great service by moulding lives and characters of several students within the four walls of the class room. I express my gratitude to my Principal and teachers who have instilled the confidence in me to take up the responsibility as the School Pupil Leader.

I've always had dreams of climbing the success ladder and some of them were fulfilled when I won prizes in the Montfort Literary and Cultural Competitions.

The dream of being a School Pupil Leader became a pleasant reality. I assure you that I will do my best in keeping the reputation of the school at its highest with the help of my friends in the school cabinet. We will strive hard and bring laurels to the school.

I would like to thank all my friends who have always stood by my side motivating me to face challenges and difficulties with sheer determination.

I believe that leadership is epitomized when we become the change we wish to see in others. Finally, I would like to end with a small poem. "Let your light shine so bright,

That the darkness around you finds no chance to fight!

Make a choice that will be great,

For each one is a leader; so let your light shine! Let your light shine! I"

BLOSSOMING INTO A FLOWER

The year was 2003, the month June and the date 23rd - the firme I entered the Primary block of Little Flower High School. I was one among the many

Surabhi Malu X A

tiny tots, entering the then blue-gated premises, in my freshly ironed clothes, new books, oily hair combed and tied into two plaits and a cute little face. Little did I know then that this was the way my future would be decided and that I would have the honour to lead this prestigious institution. The very institution that has thoroughly and completely moulded that small, little child into this young girl standing before you, all set to render her duties and render them efficiently.

We, as tiny tots, had a long list of things to accomplish and I'm pretty sure that top of that list would be to become the School Pupil Leader, I still remember the times when I would march behind the various cabinet members as a House or a Class Leader, idolizing them and dreaming of becoming the School Pupil Leader one day. Now that I've achieved that position, I feel the immense responsibility that comes hand in hand with it. Yet, I'm extremely happy as I now have a great apportunity to repay in service everything this school, this second home of mine, has given so generously to me in my days here.

This magnificent day calls me to express my sincere gratitude to each and everyone who is a part of my upbringing. I thank The Lord Almighty for his constant benedictions upon me. I know that I could never thank my parents and my brother enough, who are by far the happiest people in the world today. They have never ever left any stone unturned to provide me with the best of everything.

thank our Principal, Rev. Bro. Dr. A. Anthony Reddy, for believing in me and entrusting me with this responsibility. I promise you Sir that I shall strive to keep

the Flag of our school soaring high. I extend my warmest gratitude to all my lovely teachers for having faith in me. This little piece of poetry sums it up for you, dear teachers.

I'm glad to be your student,

A million thanks to you!

As you gave me the strength,

To make my dreams come true.

Thanks for the challenges,

You have made me face.

For they gave me the courage,

To be leading every race.

A very special thanks to all my friends. They are the ones with whom I spend a major segment of my day. I thank them all for standing by me, for rejoicing with me when I was happy and for never backing out when I was in distress. I would like to mention a special thanks to all the members of the helping staff for ensuring that the environment is clean and green enough for us to keep enjoying and carrying out our activities.

At this moment, what is going on in my mind is a mixture of a bit of nervousness, lots and lots of happiness, a sense of responsibility, a hint of excitement and a feeling of honor. I look forward to a dashing year, a year full of hope and success.

I have still got so much to express!

So much to do! So much to prove! And mareover, the best part is that I'm not alone! I've got a set of great people in the School Cabinet alongside me to help me in my endeavours! On behalf of every member of the School Cabinet, I promise you that we shall always "Let Your Light Shine, Little Flower, Let Your Light Shine!"

AU REVOIR ALMA MATER

"There is always a moment in our childhood, when the door opens and lets the future in." Its rather surprising how fast time has passed. Today, my heart is

H.D. Blaumika X 8

filled with gratitude and emotion. Its really hard to leave a place where you have spent 12 years of your life. As I take a trip down the memory lane, I remember that, I was taught three magical words ,i.e., 'Somy, Please and Thank You'.

Thank you is the greatest way to express our gratitude. But today, this word seems to be inadequate to express my feelings. 'Little Flower' has transformed us from a tiny bud to a blooming flower. We

were like a lump of clay. When we entered this Institution we were moulded and painted beautifully into what we are today. Apart from academics, we were trained in activities like art, dance, music and PT. My school has nurtured some very important values in my life like discipline, punctuality and cleanliness.

Each Little Flower teacher is like a lamp who lights the spark of knowledge. They are like flowers that spread the fragance of education, It is rightly said Acharya Devo Bhava. Whatever we are today is because of their hardwork and dedication.

I've built countless fond memories of loud, joyful laughter, our tension-filled days during exam and struggle to get our snacks in the crowded school canteen. I shall always remember my friends who have always been with me and shown me the right path.

I take this opportunity to thank each and every person of the Little Flower family who has done something to make a big difference in my life.

Lastly, I conclude by saying that we are leaving this school with mixed feelings and we carry with us the values that have been inculcated in us.

Thank you, my Alma Mater. LET YOUR LIGHT SHINE.

SCHOOL A WONDERFUL JOURNEY

I remember my first day at school, kept wondering again and again, scared, worried thinking where to go, what to do, exactly 12 years ago.

Saroj Siril X D

It was like a nightmare when I saw the teacher near me. But I was wrong, she smiled at me, came near me and hugged me, that was Ms. Akshi Mathur, my class teacher in LKG. My mam said she never complained against me, not even in PTA meetings, rather she would praise me for all my little achievements.

Then I came to the High School. I was frightened of the big campus and the High School teachers and above all the Principal at the doorstep. But I was mistaken. They all welcomed me with a cheerful smile.

I owe a lot to my teachers. Their constant guidance, encouragement and

co-operation helped me to cross all obstacles. They tried to evoke lighter moments of laughter in the class sometimes. They did get angry but only when I made them so. They loved us inspite of our faults, flaws and temperament. They accepted us the way we are. Their co-operation allowed me to participate and win various District, State and National Level Table Tennis Championships. Due to my participation in various competitions, I would miss classes but my teacher with loads of patience always encouraged me and gave me sufficient time to submit my work.

People say school is a second home but I think it is a place of warmth, love, affection, smiles, cries and a bank of knowledge. It teaches us about life, prepares us to face the world and to take success and failure in our stride.

We entered 10th class with tension and attention. We had an introductory lecture by Rev. Bro. Dr. A. Anthony Reddy, our beloved Principal and former students who gave us tips on how to plan our studies. But all of us had one thing in mind, we wanted to enjoy the last year in school,

besides focusing on academics. The day the School Cabinet was announced, my nerves were taut with tension for a while. I was happy and delighted to hear my name being announced. Now I am the Yellow House Captain. We were our blazers and badges with great pride. We became more responsible towards our work.

We realized that everything we do, is for the last time. The canteen breaks in the short interval were awesome.

Initially in Class 7th and 8th I even considered changing my school so as to make TT coaching convenient, but now I regret for having entertained such a thought.

As I look back, I realize how much I have learnt in this school. I bow down with a grateful heart to all my mentors. AhI My Alma Mater, I shall always remain thankful to you. I am very thankful to Brother Jaico, Brother Vincent, Brother Anthony Reddy, teachers and supporting staff for their constant encouragement and support.

Dear Little Flower I shall never fail or let you down all my life. I pray for God's blessings to be showered upon all of us.

LET OUR LIGHT SHINE

MERCI LITTLE FLOWER

Today, my heart is filled with a myriad of emotions; quite similar to those I faced the first day I entered this prestigious institution. It is not just a

ltar Jaisea V

building, it's a place that slowly but surely over the years I have learnt to call, a home away from home. These years seem like a long journey and suddenly you wake up one day and realize that it's all over.

I cannot say goodbye to those whom I have grown to love, for the memories we have made will last a lifetime, and will never know goodbye.

It's an abominable feeling, to think that everything we've been doing for so long has taken a break and we have no choice but to move on. I've to say its' been a wonderful experience for me. With fond memories of our school we have to leave with heavy hearts. All the activities at school were special. Our Sports Day was extraordinary, our Literary and Cultural Weeks were special and colourful, the Montfort Fests were special showcasing

the best of talents. The Annual Day was spectacular and exemplary. We will never forget the fun filled picnics, the free periods, the sharing and caring times during our lunch breaks.

Though my mather is the best cook in the world, I will always relish the school canteen's Ragda Samosa with much fervour because it has the special LFHS touch!

My school is indeed special because of its multifaceted educationists – "My Teachers!" Thank you teachers, today I am creating a few note boards on my Pinterest in your honour. They will be a source of Inspiration, Motivation, Knowledge and Wisdom – because that is what you have given us all these years.

I hold in high esteem my honourable teachers as "SOCIAL ENGINEERS" who have transformed us into polished, disciplined individuals by laying in us a rock solid foundation of impeccable moral values, wisdom and the best of education. Thank you teachers!

I'd like to thank Rev. Bro. Dr. A. Anthony Reddy, our beloved Principal for all the opportunities he has bestowed us with because I truly believe that what he is doing for us today is the most important thing.

I'm indebted to my P.E.T. instructors and games coaches for inculcating sportsmanship spirit and discipline in us and also in making us realize the value of time and punctuality. Thank you Sirs and Madams!

I wish all the very best to my batch mates for the very exciting phase of life ahead-full of challenges and learning.

Now, we are bestowed with a responsibility to carry Little Flower's torch into the world and set it ablaze with our power of knowledge which we have acquired at this esteemed institution.

It is not just a special day, it is the day that we are moving ahead to a higher level of learning and living and I am confident that being a Little Flower alumni we will come out in flying colours and LET OUR LIGHT SHINE BRIGHTI.

This day as we prepare to leave, I would like to thank Rev. Bro. A. Anthony Reddy, our Principal, all my respected teachers and my dear Little Flowers for accepting us, loving us and leading us.

Farewell Little Flowert Moving to the next stage of our life. The generation is

ours and it is our time to use what we have learnt for positive outcomes.

Thank you and LET YOUR LIGHT SHINEIII

ADIEU DEAR LITTLE FLOWER

Human beings are always the purest in the hour of meeting and farewell.

Sanjana Vyo

I didn't realize that it would be so difficult to

would be so difficult to express my views on a solemn occasion like this. I joined this school in the year 2003. Although we had bid farewell to so many batches, we awaited this day with trepidation in our lives. On one hand I was excited to prepare myself for this day, but on the other hand I have the fear of how life would be after stepping out of the doors of this prestigious institution. I realize how sad we will be when we leave this great institution.

Today the time has come for us to make the transition from the present to the future. It is very difficult to step out of this institution after spending 12 years of our

lives here. This is an important chapter of our life which has come to an end with a mixed feeling of great joy and happiness. Our Sports Day, FRESPO was very special for us with all the games we played in the spirit of sportsmanship, our Cultural Week was very special for me as I participated in all the competitions with zeal, excitement and enthusiasm, our Literary Week gave us an opportunity to exhibit our aratory skills. The most important unique Fest was the Montfort Competitions for which various rounds of selections were made and the best got selected to participate in these competitions. The most exciting programme of the year which we all enjoyed was the Annual Day when we took part in various events and made the day very special for our parents. The day which we can never forget is the Teachers' Day when we made our teachers very happy. Childrens' Day, is the day we always look forward to when our teachers make our Day special by giving valuable messages through various cultural programmes. We are going to take all these memories with us when we leave the portals of this temple of learning i.e., our school.

There have been many memorable moments we spent here with all our teachers under their guidance. We will never forget the fun times we had during the picnics, the educational tours, the time spent between the classes while we waited for the next teacher to come in, our free periods, computer periods, during the lunch break in our canteen, various visits to Old Age Homes which were very heart touching moments in our lives. One wish that dwells in every student's heart is to become a part of the School Cabinet and I am proud to say that my school has fulfilled this wish of mine.

On behalf of class X D, I would like to thank Rev. Bro. Dr. A. Anthony Reddy, Rev. Bro. Jaico Gavasis, Rev. Bro. Vincent Mendonza, Rev. Bro. P. T. Joseph, Rev. Bro. Monty and all my loving teachers and my fellow Little Flowers for the love and care you have showered upon us.

THANK YOU teachers for guiding us in the right path. What we are leaving behind are the footprints on the sands of time and many memories with you all.

Years have passed like an express train. L.F.H.S. has been more than what I and my parents have ever dreamt about. A farewell is necessary before we can meet again.

Lastly, I would like to say that we are going to miss you all a lot and until we meet again may God hold you in the palm of his hand.

ADIEU to my Little Flower and Thank You so much.

LET YOUR LIGHT SHINE

SAYONARA DEAR LITTLE FLOWER

Memories play a very prominent role in our lives. They make us laugh when we remember the times we cried together and make us cry when we remember the times we laughed together.

P. Havathi

Today I'm challenged with perhaps the hardest task of delivering the most difficult speech I've ever made. I didn't realize that it would be so difficult to express my thoughts on a solemn occasion like this.

The school is a place where we learn to grow while we discover ourselves. Little did I know that I was going to be a part this prestigious institution, that was going to bring out the dormant and creative side of my personality. I joined Little Flower in the year 2010 and since then every moment I spent here was exciting as well as memorable, it is not just a building, it is a place which slowly but surely became my home for the past 5 years. I never imagined that the strangers who surrounded me would one day become my family. Little Flower High School is a place where dreams come true, where I met people who believed in me, where I found friends for a lifetime. It has transformed me from a tiny bud to a blooming flower, It has played a pivotal role in moulding me into what I'm today.

An important epoch in our life is over but, the greatest happiness is that we all are leaving with many memorable moments to look back at. Ours Sports Days, Literary and Cultural fests, Montfort Competitions and Annual Days were extraordinary and exemplary. I just can't forget the excitement and enthusiasm during these events. We are all going to surely treasure these special moments when we leave this institution.

I would like to thank all our teachers for being there for us, for all the good things you've done for us for the past years, for all the good times we've had when we were with you, for the confidence you've shown in us, for being patient when we were wrong and most importantly for teaching us some of the most important lessons of life. This year I've had the honour of being the Sports Secretary of this prestigious institution. I take immense pride in the fact that everyone placed their trust in me. It is said that-"To be trusted is a much greater compliment than to be loved."

Years have passed like a quick roll of drums. LFHS has been more than just a school for us. What it has done for us is unforgettable. The difference between school and life is — "In school, you are taught a lesson and then given a test but in life, you're given a test that teaches you a lesson."

Not forgetting- my friends at Little Flower are the people I have grown up seeing every day. Thank you friends for all the fun, the hilarious laughter and unforgettable moments shared with each other. You are some of the most amazing people I know and I'm going to miss you all. All the fascinating moments spent with you in the maze of school life are the memories that I will treasure and cherish forever. It is said that – "A memory lasts forever; never does it die..... True friends stay together and never say goodbye."

This day as we leave, I would like to thank Rev.Bro.Dr.A.Anthony Reddy, our Principal and all my dear teachers for their care and support.

I would like to conclude by saying-Be righteous in your actions, dignified in your ways. Let your words bring happiness to others and your actions bring hope. Be good to people on your way up. They will hold you up when you tumble down. Believe in yourself and you can do incredible things.

The future lies before you like a freshly fallen sheet of snow, Be careful how to tread on it, for every step will show.

Thank you Little Flower... Let your light shine!!!!

FROM OUR MENTOR

(On the occasion of Thanksgiving Service for Class X)

It is said-

"You can learn anything you are keen on,

(Staff Member)

You should follow your passion,
You should believe in yourself."

Here I would like to narrate an incident, to express my thoughts on this special occasion when we have gathered together to thank the Lord for our Class X Students.

Once a student approached his teacher and asked, "Madam, if I work hard and diligently how long will it take for me to reach my goal", The teacher replied, "Ten years". The student then said, "What if I work very, very hard and really apply myself to learn fast, how long will it take then? The teacher replied, "Well, twenty years". The disappointed student said, "At each stage that I say, I will work harder, you say it will take me longer, why do you say that?" The teacher replied, "When you have one eye

on the goal, you will have one eye on the path of success".

So students let this incident in a student's life, be an eye opener to all of us. Set your goals, be focused and work sincerely to achieve them whole heartedly. This span of twelve years for you hasbeen a journey of ups and downs. The school has provided you ample opportunities to excel not only in academics, but also in cocurricular activities. Some of you have faced all the challenges with confidence and have put in a lot of hard work and found a balance between studies and fun. But some of you must become serious, its still not very late. You still have a month's time. With firm determination face your board exams, believing that you can and certainly you will succeed.

Remember children, you have to say 'Thank You' to everyone who has touched your life. To your parents who have stood by you no matter what, to your teachers who tried to instil a passion for learning. Never forget the moral values, you have learnt in school. If you can discipline yourself, everything will fall in its place. All your role models like Shah Rukh Khan, Siddharth Malhotra, Sachin Tendulkar, Virat Kohli, Sania Mirza,

Deepika Padukone, are on the topmost rung of the ladder of success, because they have the killer instinct in them and the winning zeal. This has made them outstanding people in society. If they are your craze, work hard like them.

School helps to teach you about life in general. School teaches you that hard work pays off, what you do outside the classroom is as important as what you do inside. The friends that you make should be sincere, true and responsible. School teaches you to have a dream in life, if you can fulfil your dream, you are a winner.

Lastly, I would like to say, never allow yourself to think that any task is beyond you. All is possible to one, who believes-

Think big and your deeds will grow,
Think small and you will fall behind
Think that you can-and you willIt's all in the state of mind.

'Surmount the rocky steps. Climb boldly over the torrent's arch. He fails alone who feebly creeps, he wins who dares the hero's march. Be thou a hero.'

Work hard for your success. God Bless You All.

ఇదంతా చూపాక మళ్లీ ఇంకోసారి వెళ్ళాలని, తోటివారికి సాయపడటం మనధర్మమని అనిపించింది.

THE VALUE OF TIME

Time is the most valuable thing on Earth. Each second is very precious. Time is said to be eternal. Neither money nor position can buy it. Time

Aman Bhati

once wasted cannot be returned. So we should not waste time. We should know the value of time. Time does not wait for anyone. Nothing on Earth can subdue or conquerit. Hence, we should make proper use of time in all the possible ways and only then we can emerge as winners.

'To attain success, one must know the value of time'

REMEMBERING A FRIEND

There is no friend like an old friend who has shared our morning days, no greeting like his welcome and no homage like his praise.

G. Sushmita

It was on the 16th of April that we the students of class 10 enthusiastically returned home as our vacation had started. Everyone planned out their activities for their holidays. But we were deeply shocked to hear the news that our beloved classmate Master Sai Sharan of Class IXC was no more. It was a moment full of sorrow. We couldn't believe that someone so close to us would suddenly go so far away never ever to return again. It was the moment when time seemed to stop. In fact he was a very close friend of ours. Sai Sharan and I studied together only in Class 9, but I got to hear so much about him from the teachers and students as well. He was very hardworking, exceptionally talented and had a pleasant personality. He was very obedient and ready to help others. Inspite of his illness, he did not want to miss school and tried his best to attend the classes whenever possible. He was an excellent student and an all rounder who received many prizes in various Literary and Cultural competitions. He also received many prizes for academic excellence right from L.K.G. It was good to see him participate in all the class activities enthusiastically inspite of his suffering. He was a calm and good natured student. All that I can say about Sai Sharan is that, he was the best among the best and yet was exceptionally humble.

Death leaves a heartache that no one can heal; but love given by the person who is no more leaves the memory that no one can steal.

Finally, I would like to say that our batch would never be the same without you Sai Sharan. You will surely be missed by the students as well as the teachers of LFHS. May your soul rest in peace. "To live in the hearts you leave behind is not to die."

GOOD FRIEND

I was deeply moved when I heard about the sad demise of our beloved friend Sai Sharan. I don't have adequate words to describe the void which has

Sritej Reddy

been created by his demise. He joined the Little Flower family in LKG and I had the opportunity to interact with him better in class 8. He was very obedient and a helpful person. He was very active and participated in all the activities. He was a topper in every class he studied and had set high goals for himself. He had a thirst for acquiring knowledge and always looked for an opportunity to prove his mettle in any competition he participated. His health problems began to shoot up when he was in class 8. Inspite of all the discomfort, the pain he had undergone, he never compromised with his academics and was regular to school.

Unfortunately, destiny had something else in store for him. In class 9 he had to cope up with lot of health problems. Yet he always tried to make it to

the school whenever possible. He used to enjoy the time spent in school and many of us were fortunate enough to share happy moments with him. Sai Sharan, we miss you very deeply.

Dear friends, there is something which Sai Sharan has left behind for all of us.i.e to set goals and never to compromise in achieving them. This is the quality we all should imbibe from this great friend of ours and a member of our Little Flower family. I pray to God to give his family the courage to face this terrible loss. We will always pray for the family members.

I would like to conclude by saying that Sai Sharan is still alive in our hearts in the form of memories which encourages us in every walk of life.

Death is pain not to one who died, but for those who are left behind.

May his soul rest in peace.

ROLE OF A MOTHER S

A good mother is expected to dedicate her whole life to her family. Mother is the adhesive that binds a family together because she provides love, care and support needed by her growing

children and all other family members. The nurturing and care which a mother provides is incomparable and she plays a vital role in the child's life. It takes a lot of commitment to become a dedicated mother. It is not an easy job. Every day is a challenge. The chid lovingly raised by her caring hands, will surely fare well in life. The values which she nurtures will be passed on to the next generation. A good mother is obligated to care for her family. The ideal environment a mother can provide for her children is a warm and caring home.

In my opinion, a mother plays the most vital role in a child's life. In her care lies the child's future. She is a role model. A mother's responsibility is to teach virtues and values to the child through her righteousness and caring actions so that the child will grow up into a caring personality.

STECOESS

Here are a few tips for you dear students, Believe in God, believe in

Believe in God, believe in yourself.

Set small little targets at a time,

కావ్యాలకాలములో అర్య ప్రజలు ఉత్తర హిందుస్తాన్ నుంచి ఎంధ్య పర్వతములవరకు వ్యాపిం చియుండిరి. అందువే ఈ దేశానికి ఆర్యవర్తనమని పిలిచేవారు. దీనినే ఆ రోజులలో మధ్యదేశమని చెప్పుచుండిరి. అలాగే బెంగాల్ను బంగ్ అనుచుండిరి.

మనము హిందుప్తాన్ పేటమును చూప్తే చాల అసక్తికరమైన విషయాలు బోధవడకాయి. అండులో హిమాలయము, వింధ్యవర్వతములు మధ్య మన్న భాగమే ఆర్యవర్తనమై యుండవచ్చు. అది మనకు విజయనాటి చెందువి అకారముగా కన్పిస్తోంది. అందువల్ల అర్యావర్తనమునకు ఇందుదేశమను చుండిరి. చెందునకు ఇందు అని కూడా పెలుస్తారు. అర్యులకు విజయవాటి చెందుడంటే చాలా ఇష్టం. వారు ఈ రూపముగల అన్ని వస్తువులను వవిత్రముగా భావించు చుండిరి. వారి ఎన్నో పట్టణాలు ఇదే ఆశారములో ఉండేవి. బెవారప్ అటువంటిచే అలహాబాదులోకూడ గంగ విజయవాట చందుని వలె ఉంటుంది.

రామాయజములో రాముడు పీతకథే కాకుండా అంకకురాజైన రావణునితో, రాముని యుద్ధం వర్ణించబడినది. మొదట ఈ కథను వాల్మికి సంస్కృతములో బ్రాపారు. కరువాత జదే కథను దాల ఇతర భాషలలో (అనువదించారు) బ్రాపారు. రామాయణము చదువుటవలన, దక్షిణ హిందుస్తాన్ లోని కోతులు రామచందునకు సహాయపడినట్లు తెలియుచున్నది. మానుమంతుడు అతనికి పర్వారుగా ఉండేవాడు. రామాయణ కథ ఆర్యులకు, దక్షిణదేశ ప్రజలకు మధ్య జరిగిన పోరాటకథ కావచ్చు. దక్షిణప్రజలకు రావణుడు అనే పేరంగల రాజు ఉండవచ్చు. బహాళా ఆర్యులు దక్షిణమునగల నల్లని మనుష్యులను కోతులుగా భావించి యుంటారు.

రామాయు ము బ్రాసిన చాలారోజులకు మహాఖారతం బ్రాసారు. ఇది రామాయుజముకంటె చాలాపెద్ద గ్రంథము. ఇది ఆర్యులు మరియు దశ్జిణమున గల బ్రావిడుల మధ్య పోట్మడే కథకాడు. ఇందులకు ఖిన్నముగా ఆర్యులు తమలో తాము పోరాడుకున్న కథ ఉంది. మహాఖారతము ఒక ఉన్నత తరగతికి చెందిన గ్రంథము. దీపిలో గంఖీరమైన ఆలోచనలు, అందమైన కథలు చెదిని మనిషి ఆశ్చర్య చకితుడాచున్నాడు. ఇండులో భగవడ్గీతవంటి ఒక ఆమూల్యగ్రంథ రత్నముంది. అందుచే అన్నిటికంటే మించి మనందరకు దీనియెడల భక్తి భావము కలుగుతుంది.

ఈ పుష్టకము ఎన్ని నేల సంవత్సరములకు పూర్వమే బ్రాపియున్నారు. ఇటువంటి పుష్టకములు బ్రాసిన ఆనాటి ప్రజలు గొప్పమేధాపులై ఉంటారు. ఇన్ని రోజులు గడిచినప్పటికి కూడా ఈ పున్మకములు ఇంతపరకు పజీపముగావేయున్నవి. బాలురు వాటివి చదువుచున్నారు. యువకులు వాటినుండి ఉపడేశాలు పొందుచున్నారు.

Born on 31st January 1673, Louis Mary Grignion, popularly known as Montfort, grew to be a prophet of his times. He saw God in the poor and gave his life for their cause. In him welled up a constant spring of love, courage, self-surrendering service and commitment for the cause of the poor and the downtrodden, the source of this unending spring was 'God Alone'. He was a great scholar, a powerful speaker and an author of many works. His talent for painting and sculpture and his poetic skills made him a great artist-poet of his time and his creations continue to inspire generations even today.
